

American Truck and Rail Audits, Inc.

May 2017 Brain Teaser

Multiplication Cryptogram

The following multiplication problem shows each letter representing a different digit, 0-9.

When the letters are arranged at the bottom of the page in the numerical order of the digits they represent, they spell out a phrase which makes a very keen observation on the art of puzzle solving.

$$\begin{array}{rcccccc} & & & & S & O & E \\ & & & & U & P & E \\ & & & & \hline & & & & S & O & E \\ & & & N & T & R & E \\ & & O & O & A & O & \\ N & S & H & U & & & \\ \hline N & R & R & N & P & E & \end{array}$$

1 2 3 4 5 6 7 8 9 0
